National business systems meet customer needs

固康药业全国业务网络

Gukang Pharmaceutical has established a national business system, from Sichuan, Chongqing and Guizhou in southwest China to coastal provinces and cities in East China, from Shaanxi and Shanxi in the Yellow River Basin to Fujian and Guangdong in the southeast coast. The business covers major provinces and cities in the country. During the year, offices and product warehousing were established in each provincial and municipality directly under the central government, greatly improving the standards and efficiency of customer service.
